

```
public class ReversePyramid {  
    public static void main(String[] args) {  
        int rows = 5; // change this value for more rows  
  
        // Reverse Pyramid Pattern  
        for (int i = 0; i < rows; i++) {  
            // Print spaces  
            for (int j = 0; j < i; j++) {  
                System.out.print(" ");  
            }  
            // Print stars  
            for (int k = 0; k < (2 * (rows - i) - 1); k++) {  
                System.out.print("*");  
            }  
            System.out.println();  
        }  
    }  
}
```
